The NHS: How the money flows

1 All figures are for 2016/17
2 Public health grant

3 With the aim of integrating health and social care services, NHS commissioners and local authorities pool some of their annual budgets (around £5.8 billion in 2016/17) to create the Better Care Fund.

4 From April 2017, all CCGs have assumed some responsibility for commissioning primary medical care services. Sixty-three have taken on full delegated responsibility; the rest have joint responsibility with NHS England.

5 NHS England transfers money to those CCGs that have taken on full delegated commissioning of primary medical care services.

Test 3: Deduce

Progress

Example

Some holidays are rainy. All rainy days are boring. Therefore,...

no clear days are boring.

- ☐ Conclusion follows
- ☒ Conclusion does not follow

(The conclusion does not follow. You cannot tell from the statements whether or not clear days are boring. Some may be.)

Please click the **Next Page** button for the next deduce example.

Question 7

You are working on an important client project. You have asked a colleague from another team to send you some key data. You need it before you can start the next phase of the project. However, she has not sent the data, despite you emailing her multiple times. You have decided to go and ask her personally.

You arrive at her desk and explain the situation. She tells you that she doesn't have time to get the data you need but will send you a high-level overview of it. She isn't being particularly cooperative and doesn't seem to want to help.

Task:
Select the answer that you would be most likely to choose and the one you would be least likely to choose.

Explain that the reason why the detailed data is so important to the project and ask whether there is anything you could do to help her make time for it.

Most

Least

☐

☐

Say that you really do understand that she is busy, and ask whether it might be possible to get the data sooner rather than later.
