

Description of Additional Supplementary Files

Title: Supplementary Data 1

Description: Proteomics dataset of liver samples from full-body RagA^{+/+} and RagA^{GTP/Δ} mice. Samples were collected upon overnight fasting and in *ad libitum* fed conditions.

Title: Supplementary Data 2

Description: Proteomics dataset of liver samples from Control and Li-RagA^{GTP/Δ} mice. Samples were collected upon overnight fasting with and without refeeding.

Title: Supplementary Data 3

Description: Proteomic dataset of liver samples from fasted Control and Li-TSC1^{-/-} mice.
