Following publication of the original article [1], it was flagged by one of the authors that the name of the *P. falciparum* gene marker of artemisinin resistance ‘*pfkelch13*’ was (incorrectly) written as “*pfketch13*”, which was repeated seven times in different parts of the published paper.

As such, please note that “*pfketch13*” in the article [1] should in fact be ***pfkelch13***.
