Full-Text

At the request of the authors, the following correction was made in the article *Escherichia coli* and *Staphylococcus aureus*: bad news and good news from the European Antimicrobial Resistance Surveillance Network (EARS-Net, formerly EARSS), 2002 to 2009 published on 17 March 2011: In the conclusion of the article, the sentence 'This could be the result of public health efforts targeted at the containment of MRSA in several European countries and in the United States.' was changed to 'This could be the result of public health efforts targeted at the containment of MRSA in several European countries.' The correction was made on 18 March 2011.
