

**Table S1.** Reasons for exclusion of scientific works from the systematic review

<b>Excluded studies</b>	
<b>Study</b>	<b>Reasons for exclusion</b>
1. Prevention strategies for congenital cytomegalovirus infection	Not intervention
2. A Social Marketing Approach to Building a Behavioral Intervention for Congenital Cytomegalovirus	Not intervention
3. Screening, Prevention, and Treatment of Congenital Cytomegalovirus	Not intervention
4. Maternal and fetal cytomegalovirus infection: diagnosis, management, and prevention	Not intervention.
5. Cytomegalovirus Infection in Pregnancy: Prevention, Presentation, Management and Neonatal Outcomes	Not intervention
6. Cytomegalovirus Infection in Pregnancy: Prevention, Presentation, Management and Neonatal Outcomes	Psychological outcomes
7. Experiences of pregnant women and healthcare professionals of participating in a digital antenatal CMV education intervention	Psychological outcomes
8. A Brief Prenatal Intervention of Behavioral Change to Reduce the Risk of Maternal Cytomegalovirus. A Randomized Controlled Trial	Psychological outcomes
9. Educating women about congenital cytomegalovirus: assessment of health education materials through a web-based survey	Non biological outcomes
10. Development and Assessment of a Prenatal Cytomegalovirus (CMV) Educational Survey: Implementation and Impact in a Metropolitan University-Based Clinic	Non biological outcomes
