

Title of the manuscript:

Leukemia-related mortality in towns lying in the vicinity of metal production and processing installations

**Supplementary Material:**

This document is available as Supplementary Material for inclusion as online documentation. It includes Table 1, that shows observed and expected cases, RR, 95%CI, of towns at a distance of less than 5 kilometers from pre-1990 metal installations in the “near vs. far” analysis and their respective corrections by means of multiple comparisons.

Supplementary Material, Table 1.
